## March 2009

Dear friends and co-workers,

Many took part in Full Moon Meditation Service meetings in Aotearoa New Zealand and throughout the world on March 11, working with Piscean Energies symbolised in the seed thought 'I leave the Father's House and turning back I save'.

Leaving our spiritual home, sacrificing awareness of our true Identity, we the Soul take human form upon this 'little blue marble' as it is sometimes called, and over a lifetime gradually awaken to a unity of purpose with our fellow beings. This unity of purpose is often stimulated by intense global combinations of upheaval, change, suffering and uncertainty and so it has been this past year, especially politically, economically and environmentally. However, as global process begins to address imbalances and inequalities that have by their very nature fuelled fear, suspicion, and alienation among nations, what many describe as a New World Order, fostering a renewed sense of hope and common identity is emerging.

Internationally minded leaders equipped with the necessary qualities to envision global solutions for global problems are taking their place upon the world stage. The Master Djwhal Khul put it this way: 'the era of one humanity is upon us. I ask you to drop your antagonisms and your antipathies, your hatreds and your racial differences, and attempt to think in terms of the one family, the one life and the one humanity' Problems of Humanity 1947.

Greetings to you with this dialogue from Agni Yoga New Era Community Page 3. It speaks to heart and mind of one family, one life and one humanity and a recalibration with the sacred 'songlines' which unify mother (matter) and father (spirit).

'Tomorrow our path will be long and we may become exhausted. Let us walk together. We shall have joy and festivity. I shall sing for you the song your mother, wife and sister sang. You will relate for me your father's story about a hero and his achievements. Let our path be one.

Be careful not to step upon a scorpion, and warn me about any vipers. Remember, we must arrive at a certain mountain village.

Traveller be my friend.'

Reflecting Unity of Purpose as we travel and awaken together

Your Triangle Centre Co-workers.

## Welcome to Peace Day and World March for Peace and Nonviolence

This year the Wanganui International Day of Peace commemoration will highlight the 2009 UN theme: the International Year of Reconciliation. Operation Peace

through Unity, together with UNANZ Wanganui Branch, and with the cooperation of the Wanganui District Council and local groups, is in the process of preparing a two-day event, starting Sunday the 20th September with a panel discussion on the theme Reconciliation, Truth and Bridgebuilding. It will take place at the Quaker Settlement and start at 2 pm and conclude with a celebratory dinner.

Some parts of the programme for the Sunday event are already falling into place:

- as in previous years we will begin by mentioning the names of all UN member countries and pray that peace will prevail in each nation. Their flags, made by Wanganui children, will be displayed;
- a song, composed for the occasion by Alan Cruise-Johnston, will be sung by the Schola Sacra Choir, accompanied by a flute;
- our key speaker, Professor Kevin Clements, Director of the new Peace and Conflict Studies Centre at Otago University, will be outlining a draft statement, based on the theme for the panel;
- other panel speakers (that include Rosslyn Noonan, Chief Human Rights Commissioner, Antony Vallyon, UNANZ President, and Susan Anderson, Restorative Justice, Wanganui) will speak to the same theme and make suggestions to the draft text, leading into:
- a full and open discussion, resulting in the final wording of the statement and plan of action, which will contain simple and practical proposals that we all can apply in our lives to help heal and restore relationships within our communities as our contribution to the International Year of Reconciliation (moderator Richard Thompson).

When we heard about the World March for Peace and Nonviolence ([www.marchamundial.org](http://www.marchamundial.org)), which will start in New Zealand (national coordinator Alyn Ware) and have its international launch in Wellington on

2nd October, we felt that we could not miss the golden opportunity for linking with this event. So we are boldly, and in full faith of the outcome, beginning to prepare for a walk, starting on the International Day of Peace (21st September) from the sculpture, Handspan, dedicated to a culture of peace and non-violence for the children of the world in 2002. From there it will make its way through neighbourhoods, villages and townships towards Wellington, and arrive in time for the panel statement to be handed over to the international organizers at the launch.

It is our hope that this walk will become a celebration of companionship, re-discovery of the beauty of our country, and of mutuality, friendship and empowerment. So we extend a heartfelt invitation to you to come with us on this walk, and warmly welcome any practical help and expertise you may be able and willing to offer towards making the World March for Peace and Nonviolence become a strong and glorious testimony to the invincible human spirit.

*The Triangle Centre looks forward to taking part in the Peace Walk and gathering around the Peace Pole planted in Paekakariki on International Peace Day last year.*

## Christ College of Trans-Himalayan Wisdom

The purpose of Christ College of Trans-Himalayan Wisdom is carried in its name. The school and its community exist to enable students to act "as if" they were the Christ and to give them the mental tools of the Ageless Wisdom Teachings so that they may serve more effectively.

Love is the note sounding at the core of the school. All of the courses and activities of the school are designed to help the students carry this note within themselves and sound it in their world of relationships.

Meditation is the core of the school because this is the process whereby the student is lead to be responsive to their own inner teacher. Hence, the meditation temple, a place of silence, is at the centre of the community.

It is said in the Ageless Wisdom Teachings that the emotional body is meant to be like a still pond on which the light of the Soul is reflected. Christ College embraces this truth by focusing the programmes of the school on healing the emotional body. To keep this ever in our minds, the school is situated so that it looks out upon a vast body of water in the centre of an ancient volcano.

Service is seen as the spontaneous response of the server to the needs of the situation. Christ College trains its students to be responsible: able to respond. The student's day is designed for the students to respond to the physical, emotional, and mental environment that they live in.

The curriculum for the school is inspired by the teachings of the Tibetan Master D.K. in Alice Bailey's book, Letters on Occult Meditation. It is designed to train the students' minds so that they may follow the scent of Truth and express it through their own creative process.

Surrounding the school, is the community of Christ College. It consists of all those people and activities that identify with the school and support its activities. The Christ College community is sited on 150 acres of land on the Banks Peninsula: an hour and 15 minutes from Christchurch, New Zealand. It is on the rim of an ancient volcano.

The school will open on 21 June 2009. There will be five students in the first year's enrolment. There will be three full-time teachers in residence. Further information on how to enrol, how to financially support the school, or what other courses and services that Christ College provides, can be found on our web site [christcollege@christcollege.co.nz](http://christcollege@christcollege.co.nz)

### OPENING OF CHRIST COLLEGE

Christ College of Trans-Himalayan Wisdom opens its residential school of meditation on 21 June. Enrolments are still open for students in this five-year programme.

There is no tuition fee and students pay a basic food and accommodation rate. The students are required to be in residence for six months and can return home to work or to other responsibilities.

## About Change ... from the 'Wisdom Kete'

I work in nature because we are nature.  
My materials come from the earth from which they return.  
Learning to live by nature's design is our only hope for the future.

**Mahatma Ghandi**

The distribution of the world's resources and the settled  
unity of the peoples of the world are in reality one and the  
same thing, for behind all modern wars lies a fundamental  
economic problem. Solve that and wars will very largely  
cease. In considering, therefore, the preservation of peace,  
as sought for and emphasized by the United Nations at this  
time, it becomes immediately apparent that peace, security  
and world stability are primarily tied up with the economic  
problem. When there is freedom from want one of the  
major causes of war will disappear. Where there is uneven  
distribution of the world's riches and where there is a  
situation in which some nations have or take everything and  
other nations lack the necessities of life, it is obvious that  
there is a trouble-breeding factor there and that something  
must be done. Therefore we should deal with world unity and  
peace primarily from the angle of the economic problem.

## The Festivals of Easter, Wesak and Goodwill

### The Easter Festival

The Easter Festival celebrates the living Christ, the teacher of Humanity and the expression of the Love of God. This is the great Western and Christian Festival and takes place at the full moon in Aries.

### The Wesak Festival

The Wesak Festival is the Festival of the Buddha. The Buddha is the expression of the Wisdom of God, the embodiment of light and the indicator of divine purpose. The Wesak Festival is the great Eastern Festival and takes place at the full moon in Taurus.

### The Festival of Goodwill

The Festival of Goodwill is the Festival of the spirit of Humanity seeking to conform to Divine Universal Plan and uphold right human relations. It takes place at the full moon in Gemini. The full moon in Gemini is also known as World Invocation Day.

### World Invocation Day

At the full moon in Gemini people of all nations use the Great Invocation (the World Prayer) as a way of invoking the energies of light, love and higher intention.

Such united invocation throughout the world establishes rhythms which in turn heighten and align human consciousness with world solutions that reflect the underlying harmony, peace, equality and synthesis required for planetary healing and wholeness.

The 24 hour World Invocation Day Vigil will take place again this year. To register and for more information, contact the Triangle Centre or visit [www.intuition-in-service.org](http://www.intuition-in-service.org)

Let Light descend on Earth.*

*From the point of Love within the Heart of God  
Let love stream forth into the hearts of men.  
May Christ return to Earth.*

*From the centre where the Will of God is known  
Let purpose guide the little wills of men  
The purpose which the Masters know and serve.*

*From the centre which we call the race of men  
Let the Plan of Love and Light work out  
And may it seal the door where evil dwells.*

*Let Light and Love and Power restore the Plan on Earth.*

### About Alice A. Bailey (1880-1949)

Alice A. Bailey established the Arcane School. She also worked with the Tibetan Master, Djwhal Khul, in the writing of a series of books presenting the next phase in the continuity of the Ageless Wisdom teaching for the present and the immediate future. (See *The Unfinished Autobiography*.)

### Extract from a Statement by the Tibetan

"The books that I have written are sent out with no claim for their acceptance. They may, or may not, be correct, true and useful. It is for you to ascertain their truth by right practice and by the exercise of the intuition."

### Alice A. Bailey Books

*Buy from the bookstore or if you prefer borrow from the library.*

#### ***The Consciousness of the Atom***

In this book the scientific relation of matter and consciousness is discussed as evolution progressively affects the atomic substance of all forms. The "atom" emerges as a miniature but complete replica of the energy structure common to all forms of life – cosmic, planetary, human and subhuman.

#### ***The Destiny of the Nations***

A nation is an evolving spiritual entity, subject, like a human being, to the impact of energies. These energies influence the national consciousness, encouraging recognition of soul destiny and cooperation with that evolving process. The spiritual destiny of many nations and their predisposing soul and personality influences are discussed in this book.

#### ***Discipleship in the New Age Vols. I & II***

These two volumes contain the record of a series of personal and group instructions given to a small group of aspirants over a period of fifteen years by a Master of the Wisdom. They contain detailed teachings on Meditation, Initiation and the Six Stages of Discipleship. They emphasise the new age, pioneering necessity for group work, the development of group consciousness, and the change in training for initiation from individuals to discipleship groups.

#### ***Education in the New Age***

Education should be a continuous process from birth to death. It is essentially a process leading to reconciliation of the human and divine elements in the constitution of a human being. Right relationship between God and humanity, spirit and matter, the whole and the part, should be a prime objective of educational techniques.

#### ***The Externalisation of the Hierarchy***

This book discusses the interdependence of all states of consciousness and kingdoms in nature within the planet. It shows the interaction between humanity, the Hierarchy and Shamballa, and sets out the essentials of Plan and Purpose which influence human affairs. The process of the externalisation of certain ashrams within the Hierarchy and the practical effects of the process are given in detail.

#### ***From Bethlehem to Calvary***

The life experience of the Master Jesus, including the Crucifixion, the Great Renunciation, is reflected in the life experience of all human beings. We can know and consciously cooperate in the journey which leads from the place of spiritual birth to the place of renunciation and resurrection.

#### ***From Intellect to Intuition***

The development of the intellect, while necessary, is a means to an end. The intellect should become a means of penetrating into new dimensions of thought and consciousness, and of awakening the intuitive faculty of "pure reason". Through occult meditation the gap is bridged between the threefold mind and the intuition.

#### ***Glamour: A World Problem***

World glamour – the sumtotal of human ignorance, fear and greed – can be dissipated through the clear, inclusive thinking of those in whom the soul (Christ) principle is awakening. Glamour results from a negative emotional focus; the dissipation of glamour depends on "illuminated thinking".

#### ***Initiation, Human and Solar***

An initiation is an expansion of consciousness, leading to revelation and illumination. Initiation is experienced by all forms of life, great and small. The work of the planetary Hierarchy, in its many stages of Mastership, is outlined in this book, and the Fourteen Rules are given by which the neophyte may become an Applicant at the Portal of Initiation.

## Alice A. Bailey books (continued)

### **Letters on Occult Meditation**

The science of meditation, as a mind-training technique, is increasingly practised everywhere. Meditation is concerned with energy flow, energy which is impersonal and fiery in nature; its potential dangers should therefore be understood and avoided, and practices adopted which are safe and trustworthy. This book sets out the basic factors, general and specific, showing the overall objective of the science of meditation to be planetary service.

### **The Light of the Soul**

This volume is an original paraphrase, with commentary, of the Yoga Sutras of Patanjali. The Yoga Sutras are of ancient origin, first reduced to writing by Patanjali, who is considered the founder of the Raja Yoga School. Control of the mind and its illumination by the soul are brought about through the practice of Raja Yoga.

### **Problems of Humanity**

Six basic world problems, with many ramifications, continue to present humanity with opportunity for progress. A perspective on these problems is shown in this book; the spiritual factors and subjective causes are related to the outer appearances and effects on the world scene.

### **The Reappearance of the Christ**

Many religions today expect the coming of an Avatar or Saviour. The second coming of the Christ, as the world Teacher for the age of Aquarius, is presented in this book as an imminent event, that is logical and practical in the continuity of divine revelation throughout the ages. The Christ belongs to all humanity; he can be known and understood as "the same great Identity in all the world religions".

### **The Soul and its Mechanism**

The soul works through the mechanism of the threefold personality. The method by which the soul and the personality vehicles interact and function together is presented in this volume; and also the way the human constitution, as a whole and in its component parts, responds to the impact of an evolving consciousness.

### **Telepathy and the Etheric Vehicle**

The scientific basis for the widely accepted ideal of the "brotherhood of man" rests on the fact of the interwoven etheric – or energy – structure underlying all forms in all kingdoms within the planet. It is this essential oneness which provides the conditions for intercommunication on all levels of consciousness, and which creates the possibility of simultaneous impression in many by a stream of Plan-inspired energy.

### **A Treatise on Cosmic Fire**

This volume deals with the underlying structure of occult teaching for the present era and with those vast cosmic processes reproduced through all areas of life from universe to atom. A large section of the book gives a detailed exposition of Solar Fire, the Fire of Mind, since this is the dominant energy to be understood and controlled during this second solar system. Among other values, the book provides a compact outline of a scheme of cosmology, philosophy and psychology which serves as a basic reference and text book.

### **A Treatise on the Seven Rays – Volumes 1 to 5**

*Five volumes have been written under the overall title of A Treatise on the Seven Rays, based on the fact, the nature, the quality and the interrelationship of the seven streams of energy pervading our solar system, our planet and all that lives and moves within its orbit.*

#### **Volumes I & II – Esoteric Psychology I & II**

These two volumes go extensively into the psychological make-up of a human being as the life, quality and appearance of an incarnating, evolving spiritual entity. They also relate the circumstance of a human psychology to world conditions and to future possibilities.

#### **Volume III – Esoteric Astrology**

The science of esoteric astrology is said to be the basic occult science of the future. Astrology is described in this book as "the science of relationships", a science which deals with those conditioning energies and forces which play through and upon the whole field of space and all that is found within it.

#### **Volume IV – Esoteric Healing**

Healing is an exact and an exacting science. Esoteric healing is equally scientific, based on a number of requirements, including knowledge of the constitution of the human being as a spiritual being and of the biology and anatomy of the physical form. In this book the seven ray techniques of healing are described; the laws and rules of healing are discussed; basic causes of disease are shown; and requirements for healing are given in detail.

#### **Volume V – The Rays and the Initiations**

The first part of this volume contains the Fourteen Rules for Group Initiation, this is an extension of the teachings given in *Initiation, Human and Solar* on the Fourteen Rules for Applicants. The second part of the book is concerned with the nine initiations by which the disciple progressively achieves liberation from the various forms of our planetary life. The possibility of group initiation is a development of the present era; this volume emphasises the growth of the group idea – group service, group responsibility, group initiation and group absorption into the centre Hierarchy.

## Alice A. Bailey books (continued)

### ***A Treatise on White Magic***

This book contains the Fifteen Rules for Magic ( for soul control) – the soul, the White Magician, becoming manifest through its own inherent “magical” powers. The human being is essentially and inherently divine. The soul is the means whereby humanity evolves a consciousness of divinity, redeems gross matter and liberates the pure flame of spirit from the limitation of form.

### ***The Unfinished Autobiography***

Although her death in December 1949 prevented the completion of this book, enough of the author’s life story emerges to show the stages in her journey from Christian evangelism to mastery of the science of esotericism, author, lecturer and teacher.

### ***The Labours of Hercules: An Astrological Interpretation by Alice Bailey.***

This book gives a vivid account of the journey of the soul as it incarnates progressively through the twelve signs of the Zodiac. The labours that Hercules performs symbolise the specific challenges that face all disciples as they seek to equip themselves to better serve their fellow human beings. It is an excellent introduction to a more esoteric understanding of astrology.

## **Compilations From The Alice Bailey Books**

### ***A Compilation on Sex***

A thought-provoking collection of extracts on the cause and basic mystery of the sex relation. “In the vale of illusion, the symbol oft engrosses the attention and that which it represents is forgotten.” Chapters include: *Sex and Discipleship; Chakras and Sex Energy; Marriage and Parenthood; Cosmic Correspondences to the Sex Impulse.*

### ***Ponder on This***

Throughout the Alice Bailey books we frequently come across arresting suggestions and ideas. Many of these are brought together in this book. Arranged in alphabetical order they form an ideal introduction to the books as a whole. Topics include: *The Ancient Mysteries; Courage; Crisis; Guidance; Joy; Mind; The New Age; Visualisation.*

### ***Serving Humanity***

“Service can be briefly described as the spontaneous effect of soul contact. This contact is so definite and fixed that the life of the soul can pour through into the instrument (the personality) which the soul must perforce use upon the physical plane.” This book contains a comprehensive collection of quotations to stimulate thought and increase our understanding of service and its vital importance at our present time.

### ***Death: The Great Adventure***

With widespread publicity concerning the “Near Death Experience”, many people are now searching for a deeper understanding of death and the process of dying. Esoteric teachings on the subtle bodies and their interrelationship have much to offer to those pondering on and researching the mystery of death.

### ***The Animal Kingdom, A Spiritual Perspective***

*The Animal Kingdom, A Spiritual Perspective* is a thought-provoking compilation of extracts from the books of Alice A Bailey. It offers an inspiring overview of humanity’s responsibility for the evolution of animals. *The Animal Kingdom, A Spiritual Perspective* deepens our understanding of the mystery of the animal kingdom because it explains the divine purpose of our association with animals, and the important role humanity has to play in their evolution. This book will be of interest to anyone who is willing to consider a new point of view regarding man’s relationship with animals.

### ***The Seventh Ray: Revealers of the New Age***

This book is a complete collection of all that Alice Bailey wrote on the seventh ray, the inaugurating ray of the new age.

### ***The Seven Rays of Life***

One of the most important features of the Alice Bailey books is the detailed information they give on the seven rays. Recent years have seen a considerable growth of interest in this subject, and many people are now enthusiastically grappling with “the science of the rays”. Alice Bailey wrote that a study of the rays will mean:

“... we shall have a practical method of analysis whereby we can arrive at a right understanding of ourselves as ensouling entities, and at a wiser comprehension of our fellowmen. We can then deal more intelligently with ourselves, with our children and with our friends and associates. We shall find ourselves able to co-operate more wisely with the Plan as it is seeking expression at any particular time”.

This book is a broad introduction to the whole subject of rays. Chapters include: *Astrology and the Rays; The Rays and World Affairs; The Rays and Human Development; The Spiritual Path and the Rays; To Serve.*

*... From time immemorial the Tibetan and Chinese people have been neighbours. In future too, we will have to live together. Therefore it is most important for us to co-exist in friendship with each other...*

*... I have no doubt that the justice of Tibet's cause will prevail if we continue to tread the path of truth and non violence.*
